For a limited time only*

Your Taylex package will include:

- 1 x Taylex ABS home sewerage treatment system – chlorine (with above ground irrigation).
- 2 x 31,500 litre concrete inground rainwater tanks with non trafficable lids.
- 1 x surface mounted water pump with cover (supply only) with trickle feed and suction lines (fitted).
- Installation of 50m standard surface irrigation (providing it can be dug by a Kanga Trencher).
- Excavation of hole, preparation of base, backfilling and water to part fill water tanks to avoid flotation.
- 3 x services after installation.
- Supply of Onga JSP120 pump and cover plus installation of trickle feed set up and suction lines for the water tank.
- Delivery of Taylex tanks to a prepared excavated area with level access for crane truck.
